

Data Centre

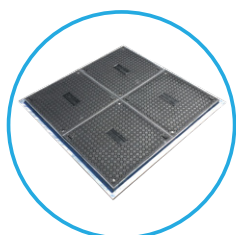

Access Solutions

EJ design and manufacture innovative access solutions for the most challenging underground infrastructure in communications, power and drainage networks.

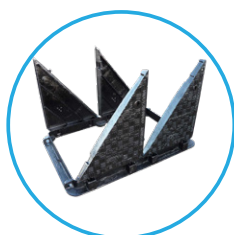

Our products are in compliance with the highest standards in the world which enable us to be trusted partners to Contractors and Design Engineers and achieve Tier 1 status as suppliers of access solutions for MV, LV and COMMS chambers on large scale Data Centre projects worldwide.

Underground Chambers

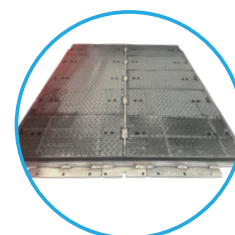

Composite Access
Covers

Hinged Ductile
Iron Access Covers

LPCB High & Standard
Security Steel Access Covers

Modular Ductile Iron
Access Covers

Hinged Ductile Iron access cover and frame, Non-rock three point suspension for stability and silent operation

Installation on standard chamber

Steel, standard security hinged & assisted access cover and frame

Standard and non standard chamber sizes
Access to all networks

Modular ductile iron/steel access cover and frame for non-standard chamber sizes

Access to all networks

Lightweight, non-corrosive composite access cover and frame

Installation in linear channels
Access to electrical and optic fiber networks

Ductile iron, hinged access cover and frame
Access to rainwater and wastewater networks

Steel, LPCB High security hinged & assisted access cover and frame

Standard and non standard chamber sizes
Access to all high security assets

Ductile iron, cycle friendly, drainage grating

Adapts to different curb heights
